How to Use This Guide

This guide is *not* a substitute live instruction under a qualified black belt who can ensure safety and provide feedback.

Nor should it be used as a "cheat sheet" to cram the night before testing - which wouldn't help anyway since testing is based on students *doing* the movements, not talking about them.

The best way to use this guide is right after class in order to maximize retention, ideally copying the summary table on the last page by hand into the student's journal. A soft copy can be downloaded from the dojo website at dragonandcranedojo.com/learn/

For students of Dragon and Crane Dojo only.
